

**THE DEMENTIA ACTION
COLLABORATIVE
NEEDS YOUR INPUT
ABOUT MEMORY CARE
IN WASHINGTON STATE!**

Do you have a family member living in a Memory Care setting?

Are you looking for a Memory Care setting for a family member?

If so, the Dementia Action Collaborative (DAC) wants to hear from you.

The DAC wants to understand the expectations and experiences of family members of people living with dementia who are seeking, using, or who have used assisted living settings in Washington State that advertise as “Memory Care”.

If you have this experience, the DAC invites and encourages you to complete a brief online survey. The purpose of this survey is to gather information to help us improve the experience of searching for and using such care.

To complete the survey, visit:

<https://www.research.net/r/5STLPKY>

The [Dementia Action Collaborative](#) (DAC) is a group of public and private and partners implementing the Washington State Plan to Address Alzheimer’s Disease and Other Dementias.
